

Hafiz Muhammad Adnan

UX/UI Designer | Graphic Designer

0325 8405224 | uiwithadnan@gmail.com | [LinkedIn](#) | [Portfolio](#)

EDUCATION

MCS | The Islamia University of Bahawalpur

2018-2020

PROFESSIONAL EXPERIENCE 2+

Shaheen Developers | Lahore, Pakistan

2026 – Present

UX/UI & Graphic Designer | **On-site**

- Sole designer across multiple shipped products web dashboards, mobile apps, and marketing websites, owning each from concept to hand off.
- Built and maintained a robust design system, using variables for dark mode support and flexible components. Collaborate closely with developers and product teams to ensure smooth handoffs and alignment between UX strategy and technical constraints.

Murcurysols | Rahim Yar Khan

2024 – 2025

UX/UI & Graphic Designer | **On-site**

- Started design career delivering UI for live web and mobile products as part of a small product team. Created user flows, wireframes, and production-ready UI with a focus on visual hierarchy and conversion driven layouts

KEY PROJECTS

Opentrade | Fintech Web App

Fintech Investment Platform: Designed dark-mode admin interfaces for securities issuance, investor management, and trade tracking, turning complex financial data into clear, filterable dashboards.

MediCare | Medical Web App

Healthcare Portal: Designed multi-role UI (patient, doctor, admin) for an ADHD telehealth platform, handling medical history, consent flows, and treatment records.

Viveprinting Packaging & Printing Website | UK client

Designed and shipped a packaging-and-printing website with clear product categories and industry-based solutions, using strong visual hierarchy, trust elements, and conversion-focused CTAs.

Car Wash Mobile App

Designed a mobile app to book, schedule, and track car-wash services with real-time updates, an intuitive booking flow, and an integrated payment experience.

SKILLS

Design: UX Design, UI Design, Wireframing, Prototyping, User Flows, Design Systems, Component Libraries, Responsive & Mobile Design, Dark Mode, Visual Hierarchy, WCAG Accessibility

Tools: Figma, Adobe XD, Photoshop, Illustrator and Canva
